

ECOCARB® KA
for adhesives, sealants
& filling compounds

Sustainability starts with the ordinary

First certified sustainable natural calcium carbonate product range in Europe, based 100% on recycled natural white marble rock. As a multifunctional filler base, it reduces product costs, improves adhesion and rheological properties.

Applications

Mineral cast:

- Outstanding damping property
- Low water absorption

Masonry and concrete blocks:

- Lower porosity and water adsorption
- Higher compressive strength

Dry mortar and self-leveling systems:

- Outstanding rheology and performance

Key benefits

- Natural calcium carbonate (GCC)
- Natural brightness
- Steep particle size distribution
- Enhanced properties of final product
- Highest filling factors are possible
- Broaden application spectrum
- Improved aesthetic properties
